LinkedIn Profile: [linkedin.com/in/rawnak-rawnak](https://www.linkedin.com/in/rawnak-rawnak)

EDUCATION

2020 - 2025 **Bachelor of Science in Computer Science
and Engineering**

EAST WEST UNIVERSITY, DHAKA

Major: Software Engineering
CGPA: 3.14/ 4.0

Undergraduation final year project

Title: "Emergency Medicare website " supervisor Anika Tabassum

LANGUAGES

- **Bangla (C1)**
- **English (speaking - B2)**
- **English (Writing- C2)**

Career Objective

Motivated and passionate Computer Science student with skills in frontend and full-stack web development. Experienced with HTML, CSS, JavaScript, React.js, Next.js, MongoDB, and Firebase through academic and personal projects. Seeking an opportunity as a Junior Frontend Developer to improve real-world development skills and contribute to modern web applications.

Technical Skills

- **Programming:** C, C++, Java (OOP, Collections, Streams), Python (basic), JavaScript (ES6), PHP
- **Frameworks & Libraries:** Django, Django REST Framework, Bootstrap, React.js, Tailwind CSS
- **Web:** HTML, CSS, JavaScript (Vanilla), REST API integration, JSON handling
- **Databases:** MySQL (schema design; joins; basic indexing), PostgreSQL, SQLite
- **Testing & QA:** JUnit 4 (unit & integration); SQA fundamentals (test plans, test cases, bug reporting); black-box & white-box basics
- **Data & ML (Python):** NumPy, pandas; data cleaning, feature engineering, EDA; train/test splits, cross-validation; models—Logistic Regression, k-Nearest Neighbors, Decision Trees; evaluation—accuracy, precision, recall, confusion matrix; basic model selection & hyperparameter tuning
- **Computer Vision:** Image classification (supervised); fine-tuning CNNs; self-supervised pretraining (SimCLR, BYOL, MoCo)
- **Tools:** Git, GitHub, VS Code, Eclipse, NetBeans, Code::Blocks, Excel (cleaning, PivotTables), Google Sheets (functions, dashboards), PowerPoint
- **Operating Systems:** Windows, Linux (basic)

Projects

SkillSphere – Full-Stack Online Learning Platform

SKillSphere | Next.js.js, Tailwind CSS, Better Auth

GitHub Repo : <https://github.com/rawnakwow/skiilsphere.git>

Live Link : <https://skiilsphere.vercel.app/>

Project Description

A highly interactive full-stack online learning platform that connects students with industry experts. The platform features secure authentication, seamless course browsing, protected routes, robust form validation, and dynamic data management to deliver a fast, responsive, and scalable learning experience.

Technologies Used

- Next.js 16 (App Router)
- React 19 (Hooks & Components)
- MongoDB (Database)
- Better Auth (Email/Password & Google OAuth)
- Tailwind CSS (Utility-First Styling)
- HeroUI (Component Library)
- React-Toastify (Interactive Notifications)
- Framer Motion (Animations)
- JWT (Authentication & Session Management)

Key Features

- **Advanced Authentication:** Secure Email/Password login and Google OAuth Single Sign-On (SSO).
- **Robust Form Validation:** Comprehensive client-side and server-side validation for reliable data handling.
- **Dynamic Routing:** Protected routes with seamless navigation and persistent authentication sessions.
- **Reusable Component Architecture:** Built with modern React hooks and reusable UI components for scalability.
- **Database Integration:** MongoDB with persistent connection management for efficient and reliable data storage.
- **Optimized Performance:** Fast rendering and responsive UI powered by Next.js App Router and React.
- **Real-Time Notifications:** Interactive user feedback using React-Toastify.

Projects

REACT.JS & WEB PROJECTS

DigitalTools | React.js, Tailwind CSS

GitHub Repo : Projects

Live Link : digitattools.netlify.app

Project Description

A modern digital platform that allows creators and professionals to explore and purchase high-quality digital assets with ease. It delivers a smooth, responsive experience with real-time cart management and intuitive UI interactions.

Technologies Used

- React.js (Functional Components & Hooks)
- Tailwind CSS (Utility-first styling)
- DaisyUI (UI Component library)
- React-Toastify (Interactive notifications)
- JSON (Dynamic product data management)

Projects

REACT.JS & WEB PROJECTS

Keekkeeper | React.js, React Router v6+, Tailwind CSS, DaisyUI

Github Link: https://github.com/rawnakwow/keenKeeper_online_friendShip.git

Live link: keenkeeper-onlien-friends.netlify.app

Description

KeenKeeper is a high-fidelity, production-ready personal relationship-tracking application designed to manage real-life connections systematically. Developed precisely to professional design layouts using fluid responsive grids, semantic state tokening, and dynamic live data synchronization.

Technologies Used

- React.js (Functional Components & Hooks)
 - Tailwind CSS (Utility-first styling)
 - DaisyUI (UI Component library)
 - React-Toastify (Interactive notifications)
 - JSON (Dynamic product data management)
 - React Router DOM (v6+)
- (Stateful Param Routing & Global Layout Context Lifting)

Key Features

- Live Interaction Analytics Panel Tracks relationship telemetry in real-time. Automatically parses dataset schemas to compute counts across four functional states: Total Friends, On Track, Due Soon, and Overdue.
- Parameterized Detail Workspaces & Stateful Check-Ins Features independent parameterized workspaces (/friend/:id) loaded via custom context routers. Includes responsive communication triggers (Call, Text, Video) that dynamically write to global application history and fire clean feedback alerts.
- Dynamic Chronological Timeline Filters: Consolidates logged contact events in a central hub. Features asynchronous selector-based filtration pipelines to seamlessly isolate interaction histories by specific communication types.

Academic Projects

Undergraduate Graduation Project

Emergency Medicare Website

Emergency Medicare Website | PHP, HTML, CSS, JavaScript

- Designed a web-based healthcare architecture for capstone validation under faculty supervision.
- Formulated database integration pathways, managed page layouts, and verified user input data security parameters.

SOFT SKILLS

- **Quick learner and adaptable**
- **Good communication and collaboration**
- **Negotiation skills**
- **Problem-solving skills**
- **Organization and time management skills**

EXTRA CURRICULAR ACTIVITY

- **Promoted environmental awareness and safe community practices through participation in local advocacy initiatives.**
- **Coordinated book donation efforts to provide educational resources for underprivileged students.**
- **Actively participated in community service projects supporting disadvantaged groups.**
- **Contributed to initiatives that encouraged education access and social responsibility**
- **Actively participated in collage making and abstract painting**
- **Active participant in chess**
